SANJA TRPESKI

PRODUCT DESIGNER | UX/UI Engineering + Front-End Development

New Jersey • trajcheskas@gmail.com • Portfolio: sanjatrpeski.com • LinkedIn: linkedin.com/in/sanja-trpeski-7a2268bb/

PROFESSIONAL SUMMARY

Product Designer and UX/UI Engineer with 8+ years of experience designing intuitive digital products and simplifying complex enterprise workflows. Experienced in requirements analysis, user flows, interaction design, and high-fidelity Figma prototyping. Collaborates closely with product and engineering teams to turn complex needs into clear, practical solutions, supported by front-end development experience.

CORE SKILLS

Product Design & UX: Requirements analysis, UX research, workflow mapping, information architecture, interaction design, usability, accessibility

Design & Prototyping: Figma, wireframing, prototyping, responsive UI, design systems, components, Adobe Creative Suite

AI-Assisted Design: Claude (research and ideation), Google Stitch (UI concept exploration), AI UX patterns

Front-End Collaboration: HTML5, CSS3, Bootstrap, JavaScript, Git/GitHub

PROFESSIONAL EXPERIENCE

Accuity Healthcare / Accuity Delivery Systems, LLC

UX/UI Engineer / Product Designer • **Oct 2018 – Sep 2026**

- Led product design for complex healthcare experiences spanning encounter review, clinical documentation, patient charts, labs, opportunities, and query workflows.
- Owned end-to-end feature design: clarified requirements, mapped multi-step flows, structured information, and created wireframes, high-fidelity Figma designs, and prototypes.
- Redesigned data-dense screens to improve information hierarchy, surface relevant clinical evidence, and connect documents with key review actions.
- Explored AI UX concepts with emphasis on transparency, evidence visibility, user control, error recovery, and trustworthy interactions.
- Collaborated directly with product managers and engineers on design decisions, feasibility, design handoff, and HTML/CSS/Bootstrap UI implementation.

The CSI Group | Paramus, NJ

Front End Developer / Designer • **2016 – 2018**

- Designed and developed responsive websites, landing pages, e-commerce experiences, campaigns, and email templates, including email work for Amazon and web creative for Citizen and Bulova.
- Built HubSpot websites, blogs, and email templates; created e-learning and interactive digital-signage experiences.

ADEVA IT | Skopje, Macedonia

Jr Front End Developer • **2015 – 2016**

- Redesigned and developed websites, supported site launches and A/B testing, and created digital marketing materials.

SELECTED PROJECTS

CDI Assist: End-to-end product design for clinical review, complex workflows, AI UX exploration, interactive prototypes, and front-end handoff.

Encounter Overview: Dashboard and encounter-review experience, information architecture, visual hierarchy, and HTML/CSS prototyping.

Opportunities & Documents: Evidence-focused navigation, clinical document workflows, UI patterns, and developer collaboration.

Query Wizard: Multi-step workflow redesign, user flows, interaction design, and high-fidelity UI.
